Management's Discussion of Fund Performance for the Fiscal Year Ended January 31, 2018 (Unaudited)

The Golub Group Equity Fund (the "Fund") returned 18.18% for the fiscal year ended January 31, 2018. In comparison, our benchmark, the S&P 500® Index (the "S&P 500")*, returned 26.41% during the same period. Since inception on April 1, 2009, the Fund has returned 237.62% as compared to the 319.22% return of the benchmark.

The S&P 500 continued its upward trajectory and 2017 calendar year marked its ninth consecutive year of positive returns on the strength of a healthy rebound in corporate profits and the year-end passage of President Trump's much anticipated tax reform bill. While the final numbers are still coming in, it looks like corporate earnings for the year will grow about 17.4% and revenue growth will be about 7%, achieving the strongest earnings growth since 2010 and the highest revenue growth since 2011. Corporate tax reform will bring the Federal corporate income tax rate down from 35% to 21% and bring the U.S. rate well below the global average of 25%, making U.S. businesses more competitive and more profitable by providing a boost to earnings. In addition, the introduction of a territorial tax system, which will remove the tax on earnings generated outside of the U.S., will now act as an incentive to bring back foreign earned profits and reinvest these profits back into the U.S. economy. Both of these should boost corporate profits and aid overall economic growth.

During the period, while absolute returns were strong, the Fund underperformed on a relative basis primarily due to security selection and the relatively high cash balance. From a sector perspective, relative to the benchmark, the portfolio maintained an overweight position in Technology, Financials, Industrials and the Consumer Discretionary sector. Within our largest weighted sector Technology, all of our holdings were up greater than 30% for the period. Our top performing stocks were Deere up 55.2%, Visa up 50.2% and Cognizant Technology Solutions up 48.3%. Berkshire Hathaway ended the period as our largest holding followed by Flowserve, Allergan and Alphabet. The Fund finished the period with 14.8% of its assets in cash.

From a sector perspective, both Consumer Staples and Consumer Discretionary, though both positive, were our worst performing sectors. New positions Chipotle Mexican Grill and Expedia both had negative returns during the period. Allergan was our worst performing stock falling 17.7% during the period. Of the 31 positions held during the period, only seven had negative returns.

We added the following four new positions to the Fund: Expedia, Priceline Group (now Booking Holdings), Chipotle Mexican Grill and LabCorp. During the period we sold the following seven positions in their entirety: Diageo, American International Group (AIG), Pepsi, C.R. Bard, Stericycle, Wells Fargo, and Time Warner.

In addition to the stock and security selection, the advisor's decision to waive fees and reimburse expenses to the Fund due to the expense limitation cap impacted performance. Had the advisor not waived and reimbursed these expenses, the performance of the Fund would have been lower.

We remain focused on our long term discipline of investing in high-quality, large-cap businesses that trade at attractive valuations and are confident that our style of investing is particularly well-suited for the period ahead.

Sincerely,

Golub Group, LLC

Total annual operating expenses, as disclosed in the most recent Golub Group Equity Fund (the "Fund") prospectus dated May 31, 2017, were 1.38% of average daily net assets (1.26% after fee waivers/expense reimbursements by Golub Group, LLC (the "Adviser")). The Adviser has contractually agreed to waive or limit its fees and assume other expenses of the Fund until May 31, 2018, so that Total Annual Fund Operating Expenses do not exceed 1.25%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board of Trustees of Valued Advisers Trust (the "Trust"), and it will automatically terminate upon the termination of the investment advisory agreement between the Trust and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund's business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any "Acquired Fund Fees and Expenses," which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies that have their own expenses. Each fee waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within three fiscal years following the date in which the fee waiver or expense reimbursement occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the fee waiver or expense reimbursement.

The performance quoted represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Current performance of the Fund may be lower or higher than the performance quoted. The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. Performance data current to the most recent month end may be obtained by calling (866) 954-6682.

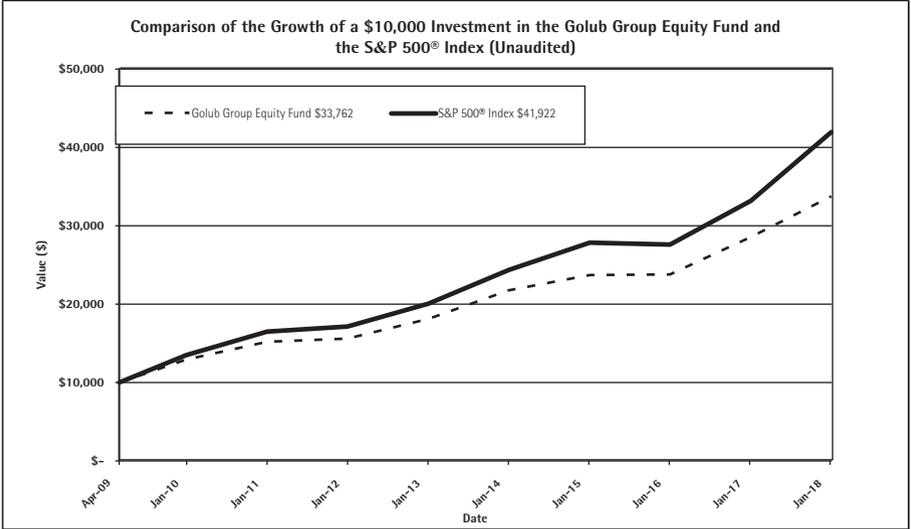

^(a) Average annual total returns reflect any change in price per share and assume the reinvestment of all distributions. The Fund's returns reflect any fee reductions during the applicable periods. If such fee reductions had not occurred, the quoted performance would have been lower. Information pertaining to the Fund's expense ratios as of January 31, 2018 can be found in the financial highlights.

^(b) The S&P 500[®] Index ("Index") is a widely recognized unmanaged index of equity securities and is representative of a broader domestic equity market and range of securities than is found in the Fund's portfolio. Golub Group Equity Fund

Notes to the Financial Statements

January 31, 2018

NOTE 1. ORGANIZATION

The Golub Group Equity Fund (the "Fund") was organized as an open-end diversified series of Valued Advisers Trust (the "Trust") on April 1, 2009. The Trust is a management investment company established under the laws of Delaware by an Agreement and Declaration of Trust dated June 13, 2008 (the "Trust Agreement"). The Trust Agreement permits the Board of Trustees (the "Board") to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a series of funds authorized by the Board. The Fund's investment adviser is Golub Group, LLC (the "Adviser"). The investment objective of the Fund is to provide long-term capital appreciation. A secondary objective is to provide current income.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 946, "Financial Services-Investment Companies". The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Securities Valuation – All investments in securities are recorded at their estimated fair value as described in Note 3.

Federal Income Taxes – The Fund makes no provision for federal income or excise tax. The Fund has qualified and intends to qualify each year as a regulated investment company ("RIC") under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net realized capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

As of and during the fiscal year ended January 31, 2018, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the fiscal year ended January 31, 2018, the Fund did not incur any interest or penalties.

Golub Group Equity Fund

Notes to the Financial Statements (continued)

January 31, 2018

Expenses – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund's relative net assets or another appropriate basis.

Security Transactions and Related Income – The Fund follows industry practice and records security transactions on the trade date for financial reporting purposes. For financial statement and income tax purposes, the specific identification method is used for determining capital gains or losses. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Dividends and Distributions – The Fund intends to distribute its net investment income and net realized long-term and short-term capital gains, if any, at least annually. Dividends and distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share of the Fund.

For the fiscal year ended January 31, 2018, the Fund made the following reclassifications to increase (decrease) the components of net assets, which were due primarily to net operating losses:

Paid-in Capital	Accumulated Net Investment Loss	Accumulated Undistributed Net Realized Gain from Investments
\$ -	\$8,713	\$(8,713)

NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS

Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. GAAP establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and establish classification of fair value measurements for disclosure purposes.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (for example, the risk inherent in a

Golub Group Equity Fund

Notes to the Financial Statements (continued)

January 31, 2018

particular valuation technique used to measure fair value including a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date.
- Level 2 – other significant observable inputs (including, but not limited to, quoted prices for an identical security in an inactive market, quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments based on the best information available)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Equity securities that are traded on any stock exchange are generally valued at the last quoted sale price on the security's primary exchange. Lacking a last sale price, an exchange-traded security is generally valued at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued at the NASDAQ Official Closing Price. When using the market quotations and when the market is considered active, the security is classified as a Level 1 security. In the event that market quotations are not readily available or are considered unreliable due to market or other events, the Fund values its securities and other assets at fair value in accordance with policies established by and under the general supervision of the Board. Under these policies, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used.

Investments in mutual funds, including money market mutual funds, are generally priced at net asset value ("NAV") provided by the pricing service of the funds. These securities are categorized as Level 1 securities.

Golub Group Equity Fund

Notes to the Financial Statements (continued)

January 31, 2018

In accordance with the Trust's valuation policies, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single method exists for determining fair value, because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of a security being valued by the Adviser would be the amount that the owner might reasonably expect to receive upon the current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market prices of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Fair-value pricing is permitted if, in the Adviser's opinion, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the close of a market but before the Fund's NAV calculation that may affect a security's value, or the Adviser is aware of any other data that calls into question the reliability of market quotations.

The following is a summary of the inputs used to value the Fund's investments as of January 31, 2018:

Assets	Valuation Inputs			Total
	Level 1	Level 2	Level 3	
Common Stocks ^(a)	\$53,186,517	\$ -	\$ -	\$53,186,517
Money Market Securities	8,236,740	-	-	8,236,740
Total	\$61,423,257	\$ -	\$ -	\$61,423,257

^(a) Refer to Schedule of Investments for sector classifications.

The Fund did not hold any investments at the end of the reporting period for which other significant observable inputs (Level 2) were used in determining fair value. The Fund did not hold any investments at the end of the reporting period for which significant unobservable inputs (Level 3) were used in determining fair value; therefore, no reconciliation of Level 3 securities is included for this reporting period. The Fund did not hold any derivative instruments during the reporting period.

The Trust recognizes transfers between fair value hierarchy levels at the end of the reporting period. There were no transfers between any levels as of January 31, 2018 based on hierarchy levels assigned at January 31, 2017.

NOTE 4. TRANSACTIONS WITH AFFILIATES AND OTHER SERVICE PROVIDERS

Under the terms of the investment advisory agreement on behalf of the Fund, the Adviser manages the Fund's investments subject to oversight of the Board. As compensation for its services, the Fund pays the Adviser a fee, computed and accrued daily and paid monthly, at

Golub Group Equity Fund

an annual rate of 1.00% of the average daily net assets of the Fund. For the fiscal year ended January 31, 2018, the Adviser earned a fee of \$576,735 from the Fund before the waivers described below. At January 31, 2018, the Fund owed the Adviser \$48,376.

The Adviser has contractually agreed to waive its management fee or limit its fee and reimburse certain Fund operating expenses, until May 31, 2018, so that the ratio of total annual operating expenses does not exceed 1.25%. This operating expense limitation does not apply to interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with GAAP, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expense on short sales, expenses incurred under a plan of distribution under Rule 12b-1, and expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any "Acquired Fund Fees and Expenses." Acquired Fund Fees and Expenses represent the pro rata expense indirectly incurred by the Fund as a result of investing in other investment companies, including exchange-traded funds, closed-end funds and money market funds that have their own expenses. For the fiscal year ended January 31, 2018, the Adviser waived fees of \$45,426. Each fee waiver or expense reimbursement by the Adviser is subject to repayment by the Fund within three fiscal years following the date in which that particular waiver or reimbursement occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in effect at the time of the waiver and any expense limitation in place at the time of repayment. As of January 31, 2018, the Adviser may seek repayment of investment advisory fee waivers and expense reimbursements in the amount of \$176,740 from the Fund no later than January 31, 2021.

The Trust retains Ultimus Asset Services, LLC (the "Administrator") to provide the Fund with administration and compliance, fund accounting, and transfer agent services, including all regulatory reporting. For the fiscal year ended January 31, 2018, the Administrator earned fees of \$55,152 for administration services, \$25,000 for fund accounting services and \$20,000 for transfer agent services. At January 31, 2018, the Fund owed the Administrator \$8,313 for such services.

The officers and one trustee of the Trust are members of management and/or employees of the Administrator. Unified Financial Securities, LLC (the "Distributor") acts as the principal distributor of the Fund's shares.

The Fund has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the Investment Company Act of 1940 (the "1940 Act"). The Plan provides that the Fund will pay the Distributor and/or any registered securities dealer, financial institution or any other person (the "Recipient") a shareholder servicing fee of 0.25% of the average daily net assets of the Fund in connection with the promotion and distribution of the Fund's shares or the provision of personal services to shareholders, including, but not necessarily

limited to, advertising, compensation to underwriters, dealers and selling personnel, the printing and mailing of prospectuses to other than current Fund shareholders, the printing and mailing of sales literature and servicing shareholder accounts ("12b-1 Expenses"). The Fund or Distributor may pay all or a portion of these fees to any Recipient who renders assistance in distributing or promoting the sale of shares, or who provides certain shareholder services, pursuant to a written agreement. The Plan is a compensation plan, which means that compensation is provided regardless of 12b-1 Expenses actually incurred. It is anticipated that the Plan will benefit shareholders because an effective sales program typically is necessary in order for the Fund to reach and maintain a sufficient size to achieve efficiently its investment objectives and to realize economies of scale. The Plan is not active and will not be activated prior to May 31, 2018.

There were no payments made by the Fund to the Distributor during the fiscal year ended January 31, 2018.

NOTE 5. PURCHASES AND SALES OF SECURITIES

For the fiscal year ended January 31, 2018, purchases and sales of investment securities, other than short-term investments were as follows:

<u>Purchases</u>	<u>Sales</u>
\$11,097,130	\$15,460,135

There were no purchases or sales of long-term U.S. government obligations during fiscal year ended January 31, 2018.

NOTE 6. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of a fund, under Section 2(a)(9) of the 1940 Act. At January 31, 2018, Charles Schwab & Co., Inc. ("Schwab") owned, as record shareholder, 96% of the outstanding shares of the Fund. It is not known whether Schwab or any of the underlying beneficial owners owned or controlled 25% or more of the voting securities of the Fund.

NOTE 7. FEDERAL TAX INFORMATION

At January 31, 2018, the net unrealized appreciation (depreciation) of investments for tax purposes was as follows:

Gross Appreciation	\$14,398,524
Gross Depreciation	(1,033,437)
<u>Net Appreciation on Investments</u>	<u>\$13,365,087</u>

Golub Group Equity Fund

Notes to the Financial Statements (continued)

January 31, 2018

At January 31, 2018, the aggregate cost of securities for federal income tax purposes was \$48,058,170.

The tax characterization of distributions for the fiscal years ended January 31, 2018 and January 31, 2017 were as follows:

	2018	2017
Distributions paid from:		
Ordinary Income*	\$ 110,328	\$ 652,727
Long-Term Capital Gains	4,376,070	3,299,952
	<u>\$4,486,398</u>	<u>\$3,952,679</u>

* Short-term capital gain distributions are treated as ordinary income for tax purposes.

At January 31, 2018, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed Long-Term Capital Gains	\$ 1,669,034
Accumulated Capital and Other Losses	(32,373)
Unrealized Appreciation (Depreciation)	13,365,087
	<u>\$15,001,748</u>

At January 31, 2018, the difference between book basis and tax basis unrealized appreciation (depreciation) is attributable to the tax deferral of losses on wash sales.

Under current tax law, net investment losses after December 31 and capital losses realized after October 31 of the Fund's fiscal year may be deferred and treated as occurring on the first business day of the following fiscal year for tax purposes. The Fund deferred losses as follows:

Qualified Late Year
Ordinary Loss
\$32,373

NOTE 8. COMMITMENTS AND CONTINGENCIES

The Trust indemnifies its officers and trustees for certain liabilities that may arise from their performance of their duties to the Trust or the Fund. Additionally, in the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

Based upon this evaluation, management has determined there were no items requiring adjustment of the financial statements or additional disclosure.

Report of Independent Registered Public Accounting Firm

To the Shareholders of Golub Group Equity Fund and Board of Trustees of Valued Advisers Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Golub Group Equity Fund (the "Fund"), a series of Valued Advisers Trust, as of January 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, including the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Golub Group Equity Fund as of January 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits include performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and confirmation of securities owned as of January 31, 2018, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2011.

Summary of Fund Expenses (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example in the table below is based on an investment of \$1,000 invested at the beginning of the period, and held for the six month period from August 1, 2017 to January 31, 2018.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.60), then multiply the result by the number in the first line under the heading "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare the 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) or redemption fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value August 1, 2017	Ending Account Value January 31, 2018	Expenses Paid During the Period^(a)
Actual	\$1,000.00	\$1,093.30	\$6.59
Hypothetical ^(b)	\$1,000.00	\$1,018.90	\$6.36

^(a) Expenses are equal to the Fund's annualized net expense ratio of 1.25%, multiplied by the average account value over the period, multiplied by 184/365.

^(b) Assumes a 5% return before expenses.

Additional Federal Income Tax Information (Unaudited)

The Form 1099-DIV you received in January 2018 shows the tax status of all distributions paid to your account in calendar year 2017. Shareholders are advised to consult their own tax adviser with respect to the tax consequences of their investment in the Fund. As required by the Internal Revenue Code and/or regulations, shareholders must be notified regarding the status of qualified dividend income for individuals and the dividends received deduction for corporations.

Qualified Dividend Income. The Fund designates approximately 100% or up to the maximum amount of such dividends allowable pursuant to the Internal Revenue Code, as qualified dividend income eligible for the reduced tax rate of 15%.

Dividends Received Deduction. Corporate shareholders are generally entitled to take the dividends received deduction on the portion of the Fund's dividend distribution that qualifies under tax law. For the Fund's calendar year 2017 ordinary income dividends, 100% qualifies for the corporate dividends received deduction.

For the year ended January 31, 2018, the Fund designated \$4,376,070 as 20% long-term capital gain distributions.

Investment Advisory Agreement Renewal (Unaudited)

At a meeting held on December 12, 2017, the Board of Trustees (the "Board") considered the renewal of the Investment Advisory Agreement (the "Golub Agreement") between Valued Advisers Trust (the "Trust") and Golub Group, LLC ("Golub") with respect to the Golub Group Equity Fund (the "Golub Fund"). Golub provided written information to the Board to assist the Board in its considerations.

Counsel reminded the Trustees of their fiduciary duties and responsibilities as summarized in a memorandum from his firm, including the factors to be considered, and the application of those factors to Golub and the Golub Agreement. In assessing these factors, the Board took into consideration information furnished by Golub and Trust management for the Board's review and consideration throughout the year, as well as information specifically prepared or presented in connection with the annual renewal process, including: (i) reports regarding the services and support provided to the Golub Fund and its shareholders by Golub; (ii) quarterly assessments of the investment performance of the Golub Fund by personnel of Golub; (iii) commentary on the reasons for the Golub Fund's performance; (iv) presentations by Golub addressing Golub's investment philosophy, investment strategy, personnel, and operations; (v) compliance and audit reports concerning the Golub Fund and Golub; (vi) disclosure information contained in the registration statement for the Golub Fund and the Form ADV of Golub; and (vii) a memorandum from Counsel, that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving the Golub Agreement. The Board also requested and received various informational materials including, without limitation: (a) documents containing information about Golub, including its financial information, a description of personnel and the services it provides to the Golub Fund; information on Golub's investment advice and performance; summaries of the Golub Fund's expenses, compliance program, current legal matters, and other general information; (b) comparative expense and performance information for other mutual funds with strategies similar to the Golub Fund; and (c) the benefits to be realized by Golub from its relationship with the Golub Fund. The Board did not identify any particular information that was most relevant to its consideration of the Golub Agreement and each Trustee may have afforded different weight to the various Factors.

1. The nature, extent, and quality of the services to be provided by Golub. In this regard, the Board considered Golub's responsibilities under the Golub Agreement. The Trustees considered the services being provided by Golub to the Golub Fund. The Trustees discussed, among other things: the quality of Golub's investment advisory services (including research and recommendations with respect to portfolio securities), its process for formulating investment recommendations and assuring compliance with the Golub Fund's investment objectives and limitations, its coordination of services for the Golub Fund among the Golub Fund's service providers, and its efforts to promote the Golub Fund and grow its assets. The Trustees considered Golub's continuity of, and commitment to retain, qualified personnel and Golub's commitment to maintain and enhance its resources and

systems. The Trustees considered Golub's personnel, including the education and experience of the personnel. The Trustees noted the addition of personnel dedicated to business development, and the potential benefits to the Golub Fund. After considering the foregoing information and further information in the Meeting materials provided by Golub (including Golub's Form ADV), the Board concluded that, in light of all the facts and circumstances, the nature, extent, and quality of the services provided by Golub were satisfactory and adequate for the Golub Fund.

2. Investment Performance of the Golub Fund and Golub. In considering the investment performance of the Golub Fund and Golub, the Trustees compared the performance of the Golub Fund with the performance of funds in the same Morningstar category, as well as with peer group data and the Golub Fund's benchmark. The Trustees noted that the Golub Fund had underperformed compared to its peer group for one month, three month, and year-to-date periods ended September 30, 2017, but had outperformed for the one year, three year, and five year periods ended on that date. They observed that the Golub Fund had underperformed its category average for all periods presented and had also underperformed as compared to its benchmark for those periods. The Trustees also considered the consistency of Golub's management of the Golub Fund with its investment objective, strategies, and limitations. The Trustees considered the Golub Fund's performance relative to the performance of Golub's equity composite and noted that the performance of the composite was higher for 2016. They considered Golub's explanation regarding the reasons for the difference, and determined that the explanation was reasonable. After reviewing and discussing the investment performance of the Golub Fund further, Golub's experience managing the Golub Fund, Golub's historical performance, and other relevant factors, the Board concluded, in light of all the facts and circumstances, that the investment performance of the Golub Fund and Golub was acceptable.
3. The costs of the services to be provided and profits to be realized by Golub from the relationship with the Golub Fund. In considering the costs of services to be provided and the profits to be realized by Golub from the relationship with the Golub Fund, the Trustees considered: (1) Golub's financial condition; (2) asset level of the Golub Fund; (3) the overall expenses of the Golub Fund; and (4) the nature and frequency of advisory fee payments. The Trustees reviewed information provided by Golub regarding its profits associated with managing the Golub Fund. The Trustees also considered potential benefits for Golub in managing the Golub Fund. The Trustees then compared the fees and expenses of the Golub Fund (including the management fee) to other comparable mutual funds. The Trustees observed that the Golub Fund's advisory fee and net expense ratio were above the average and median of its Morningstar category, but well below the maximum. They also noted that the Golub Fund's advisory fee was comparable to the average and median of its custom peer group, and the net expense ratio was below the average and median of its custom peer group. Based on the foregoing, the Board

concluded that the fees to be paid to Golub by the Golub Fund and the profits to be realized by Golub, in light of all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Golub.

4. The extent to which economies of scale would be realized as the Golub Fund grows and whether advisory fee levels reflect these economies of scale for the benefit of the Golub Fund's investors. In this regard, the Board considered the Golub Fund's fee arrangements with Golub. The Board considered that while the management fee remained the same at all asset levels, the Golub Fund's shareholders had experienced benefits from the Golub Fund's expense limitation arrangement, and that Golub had agreed to extend that arrangement for another year. They also noted that the Golub Fund's shareholders would continue to benefit from the economies of scale under the Trust's agreements with service providers other than Golub. In light of the foregoing, the Board determined that the Golub Fund's fee arrangements, in light of all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Golub.
5. Possible conflicts of interest and benefits to Golub. In considering Golub's practices regarding conflicts of interest, the Trustees evaluated the potential for conflicts of interest and considered such matters as the experience and ability of the advisory personnel assigned to the Golub Fund; the basis of decisions to buy or sell securities for the Golub Fund and/or Golub's other accounts; and the substance and administration of Golub's code of ethics. The Trustees also considered disclosure in the registration statement of the Trust relating to Golub's potential conflicts of interest. The Trustees discussed Golub's practices for seeking best execution for the Golub Fund's portfolio transactions. In terms of other benefits to Golub, the Trustees considered Golub's perspective that the Golub Fund provides an investment option for smaller accounts, and the public nature of the Golub Fund provides credibility to Golub's operations. Based on the foregoing, the Board determined that Golub's standards and practices relating to the identification and mitigation of potential conflicts of interest were satisfactory.

After additional consideration of the factors delineated in the memorandum provided by counsel and further discussion among the Board members, the Board determined to approve the continuation of the Golub Agreement.
