# Management's Discussion Of Fund Performance For The Fiscal Year Ended January 31, 2019 (Unaudited)

The Golub Group Equity Fund (the "Fund") returned -5.70% for the fiscal year ending January 31, 2019. In comparison, our benchmark, the S&P 500® Index (the "S&P 500")\*, returned -2.31% during the same period. Since inception on April 1, 2009, the Fund has returned 218.36% as compared to the 309.52% return of the benchmark.

Golub Group celebrated our 15-year anniversary on December 1, 2018. We are grateful to you, our clients for helping us turn a vision into a reality by offering us your trust. We are grateful to our team, who have seen in Golub Group and our clients something special, worth the commitment of their time and careers. We are grateful to Michael Golub, who offered his experience and wisdom from the firm's founding to his passing in 2016. What we are today was his vision for the firm, we know he would be proud.

The S&P 500 had its first negative return for the calendar year, ending a nine year run of consecutive positive returns. All of the loss occurred in the fourth quarter with the S&P 500 falling 13.5%, as the market became fixated on the prospects of higher interest rates, a slowing global economy, the U.S. government shutdown and the concern around trade and tariff disputes with China. This marked the worst quarter and year for the markets since 2008 and the worst December since 1931. The only thing remotely positive that can be said about the markets return is that it could have been worse. U.S. markets soundly beat foreign developed and emerging market indexes. The MSCI World Index (developed countries) lost -8.2%, and the MSCI Emerging Markets Index declined by -14.5% for the full year.

During the period, the Fund underperformed on a relative basis primarily due to security selection. From a sector perspective, relative to the benchmark, the portfolio maintained an overweight position in Information Technology, Healthcare and Industrial sectors. Our largest weighted sector, Information Technology, was also our best performing sector and the only sector that generated a positive return for the period. Our top performing stocks were Fiserv, up 17.8%; Microsoft, up 9.8%; and W.W. Grainger, up 9.5%. Berkshire Hathaway ended the period as our largest holding followed by Flowserve, Allergan and Cognizant.

From a sector perspective, Basic Materials and Healthcare were our worst performing sectors. Two Industrial holdings, Colfax and General Electric, were our worst performing stocks, falling 43.0% and 36.3%, respectively, during the period.

We added the following three (3) new positions to the Fund: General Electric, Walt Disney and Wells Fargo. During the period we sold the following four (4) positions in their entirety: General Motors, Mondelez, Chipotle Mexican Grill and Colfax.

In addition to the stock and security selection, the advisor's decision to waive fees and reimburse expenses to the Fund due to the expense limitation cap impacted performance. Had the advisor not waived and reimbursed these expenses, the performance of the Fund would have been lower.

# Management's Discussion Of Fund Performance For The Fiscal Year Ended January 31, 2019 (Unaudited)

We remain focused on our long term discipline of investing in high-quality, large-cap businesses that trade at attractive valuations and are confident that our style of investing is particularly well-suited for the period ahead.

Sincerely,

Golub Group, LLC

## Average Annual Total Returns as of January 31, 2019 <sup>(a)</sup>

	One Year	Three Year	Five Year	Since Inception (April 1, 2009)
<b>Golub Group Equity Fund</b>	-5.70%	10.24%	7.90%	12.49%
<b>S&amp;P 500<sup>®</sup> Index<sup>(b)</sup></b>	-2.31%	14.02%	10.96%	15.41%

Total annual operating expenses, as disclosed in the most recent Golub Group Equity Fund (the “Fund”) prospectus dated May 31, 2018, were 1.35% of average daily net assets (1.27% after fee waivers/expense reimbursements by Golub Group, LLC (the “Adviser”). The Adviser has contractually agreed to waive or limit its fees and assume other expenses of the Fund until May 31, 2019, so that Total Annual Fund Operating Expenses do not exceed 1.25%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board of Trustees of Valued Advisers Trust (the “Trust”), and it will automatically terminate upon the termination of the investment advisory agreement between the Trust and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund’s business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any “Acquired Fund Fees and Expenses,” which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies that have their own expenses. Each fee waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following the date in which the fee waiver or expense reimbursement occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the fee waiver or expense reimbursement and the expense limitation in place at the time of the repayment.

*The performance quoted represents past performance, which does not guarantee future results.* The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. ## Notes to the Financial Statements

January 31, 2019

### NOTE 1. ORGANIZATION

The Golub Group Equity Fund (the “Fund”) was organized as an open-end diversified series of Valued Advisers Trust (the “Trust”) on April 1, 2009. The Trust is a management investment company established under the laws of Delaware by an Agreement and Declaration of Trust dated June 13, 2008 (the “Trust Agreement”). The Trust Agreement permits the Board of Trustees (the “Board”) to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a series of funds authorized by the Board. The Fund’s investment adviser is Golub Group, LLC (the “Adviser”). The investment objective of the Fund is to provide long-term capital appreciation. A secondary objective is to provide current income.

### NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

**Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

**Federal Income Taxes** – The Fund makes no provision for federal income or excise tax. The Fund has qualified and intends to qualify each year as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net realized capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

As of and during the fiscal year ended January 31, 2019, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the statement of operations when incurred. During the fiscal year ended January 31, 2019, the Fund did not incur any interest or penalties. Management of the Fund has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the last three tax year ends and the interim tax period since then, as applicable). Management believes that there is no tax liability resulting from unrecognized tax benefits related to uncertain tax positions taken.

**Expenses** – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund’s relative net assets or other appropriate basis as determined under the direction of the Board.

# Golub Group Equity Fund

## Notes to the Financial Statements (continued)

January 31, 2019

**Security Transactions and Related Income** – The Fund follows industry practice and records security transactions on the trade date for financial reporting purposes. The specific identification method is used for determining gains or losses for financial statement and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized using the effective interest method, if applicable. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and rates.

**Dividends and Distributions** – The Fund intends to distribute its net investment income and net realized long-term and short-term capital gains, if any, at least annually. Dividends and distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified among the components of net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share (“NAV”) of the Fund.

**Share Valuation** – The NAV is calculated each day the New York Stock Exchange is open by dividing the total value of the Fund’s assets, less liabilities, by the number of shares outstanding for the Fund.

### NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS

All investments in securities are recorded at their estimated fair value. Fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. GAAP establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (the risk inherent in a particular valuation technique used to measure fair value including a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained and available from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

# Golub Group Equity Fund

## Notes to the Financial Statements (continued)

January 31, 2019

- Level 1 – unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date
- Level 2 – other significant observable inputs (including, but not limited to, quoted prices for an identical security in an inactive market, quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments based on the best information available)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy which is reported, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Equity securities that are traded on any stock exchange are generally valued at the last quoted sale price on the security's primary exchange. Lacking a last sale price, an exchange-traded security is generally valued at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued at the NASDAQ Official Closing Price. When using the market quotations and when the market is considered active, the security is classified as a Level 1 security. In the event that market quotations are not readily available or are considered unreliable due to market or other events, the Fund values its securities and other assets at fair value in accordance with policies established by and under the general supervision of the Board. Under these policies, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used.

Investments in mutual funds, including money market mutual funds, are generally priced at the ending NAV. These securities are categorized as Level 1 securities.

In accordance with the Trust's valuation policies, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single method exists for determining fair value, because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of a security being valued by the Adviser would be the amount that the Fund might reasonably expect to receive upon the current sale. Methods that are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market prices of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Fair-value pricing is permitted if, in the Adviser's opinion, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the close of a market but before the Fund's NAV calculation that may affect a security's value, or the Adviser is aware of any other data that calls into question the reliability of market quotations.

The following is a summary of the inputs used to value the Fund's investments as of January 31, 2019:

The Fund did not hold any investments at the end of the reporting period in which significant unobservable inputs (Level 3) were used in determining fair value; therefore, no reconciliation of Level 3 securities is included for this reporting period. The Fund did not hold any derivative instruments during the reporting period.

#### NOTE 4. TRANSACTIONS WITH AFFILIATES AND OTHER SERVICE PROVIDERS

Under the terms of the investment advisory agreement on behalf of the Fund, the Adviser manages the Fund's investments subject to oversight of the Board. As compensation for its services, the Fund pays the Adviser a fee, computed and accrued daily and paid monthly, at an annual rate of 1.00% of the average daily net assets of the Fund. For the fiscal year ended January 31, 2019, the Adviser earned a fee of \$582,875 from the Fund before the waivers described below. At January 31, 2019, the Fund owed the Adviser \$37,654.

The Adviser has contractually agreed to waive its management fee or limit its fee and reimburse certain Fund operating expenses, until May 31, 2019, so that the ratio of total annual operating expenses does not exceed 1.25%. This operating expense limitation does not apply to interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with GAAP, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expense on short sales, expenses incurred under a plan of distribution under Rule 12b-1, and expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any "Acquired Fund Fees and Expenses." Acquired Fund Fees and Expenses represent the pro rata expense indirectly incurred by the Fund as a result of investing in other investment companies, including exchange-traded funds, closed-end funds and money market funds that have their own expenses. For the fiscal year ended January 31, 2019, the Adviser waived fees of \$59,903. Each fee waiver or expense reimbursement by the Adviser is subject to repayment by the Fund within three years following the date in which that particular waiver or reimbursement occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in effect at the time of the waiver or reimbursement and any expense limitation in place at the time of repayment. As of January 31, 2019, the Adviser may seek repayment of investment advisory fee waivers and expense reimbursements in the amount of \$166,647 from the Fund no later than January 31, 2022.

## Notes to the Financial Statements (continued)

January 31, 2019

The Trust retains Ultimus Fund Solutions, LLC (the “Administrator”) to provide the Fund with administration and compliance, fund accounting, and transfer agent services, including all regulatory reporting. For the fiscal year ended January 31, 2019, the Administrator earned fees of \$57,101 for administration services, \$25,000 for fund accounting services and \$20,000 for transfer agent services. At January 31, 2019, the Fund owed the Administrator \$9,337 for such services.

The officers and one trustee of the Trust are members of management and/or employees of the Administrator. Unified Financial Securities, LLC (the “Distributor”) acts as the principal distributor of the Fund’s shares. There were no payments made to the Distributor by the Fund for the fiscal year ended January 31, 2019.

The Fund has adopted a Distribution Plan (the “Plan”) pursuant to Rule 12b-1 under the Investment Company Act of 1940 (the “1940 Act”). The Plan provides that the Fund will pay the Distributor and/or any registered securities dealer, financial institution or any other person (the “Recipient”) a shareholder servicing fee of 0.25% of the average daily net assets of the Fund in connection with the promotion and distribution of the Fund’s shares or the provision of personal services to shareholders, including, but not necessarily limited to, advertising, compensation to underwriters, dealers and selling personnel, the printing and mailing of prospectuses to other than current Fund shareholders, the printing and mailing of sales literature and servicing shareholder accounts (“12b-1 Expenses”). The Fund or Distributor may pay all or a portion of these fees to any Recipient who renders assistance in distributing or promoting the sale of shares, or who provides certain shareholder services, pursuant to a written agreement. The Plan is a compensation plan, which means that compensation is provided regardless of 12b-1 Expenses actually incurred. It is anticipated that the Plan will benefit shareholders because an effective sales program typically is necessary in order for the Fund to reach and maintain a sufficient size to achieve efficiently its investment objectives and to realize economies of scale. The Plan is not active and will not be activated prior to May 31, 2019.

### NOTE 5. PURCHASES AND SALES OF SECURITIES

For the fiscal year ended January 31, 2019, purchases and sales of investment securities, other than short-term investments, were \$15,666,151 and \$16,694,992, respectively.

There were no purchases or sales of long-term U.S. government obligations during the fiscal year ended January 31, 2019.

### NOTE 6. FEDERAL TAX INFORMATION

At January 31, 2019, the net unrealized appreciation (depreciation) of investments for tax purposes was as follows:

Gross unrealized appreciation	\$ 9,018,361
Gross unrealized depreciation	(2,896,735)
Net unrealized appreciation on investments	6,121,626
Tax cost of investments	\$ 48,915,562

## Notes to the Financial Statements (continued)

January 31, 2019

The tax character of distributions for the fiscal years ended January 31, 2019 and January 31, 2018 were as follows:

	2019	2018
Distributions paid from:		
Ordinary income <sup>(a)</sup>	\$ —	\$ 110,328
Long-term capital gains	4,059,632	4,376,070
<b>Total taxable distributions</b>	<b>\$ 4,059,632</b>	<b>\$ 4,486,398</b>

<sup>(a)</sup> For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income distributions

At January 31, 2019, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed ordinary income	\$ 5,706
Undistributed long-term capital gains	1,125,053
Accumulated capital and other losses	—
Unrealized appreciation (depreciation)	6,121,626
<b>Total</b>	<b>\$ 7,252,385</b>

At January 31, 2019, the difference between book basis and tax basis unrealized appreciation (depreciation) is attributable to the tax deferral of losses on wash sales.

### NOTE 7. COMMITMENTS AND CONTINGENCIES

The Trust indemnifies its officers and trustees for certain liabilities that may arise from their performance of their duties to the Trust or the Fund. Additionally, in the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

### NOTE 8. RECENT ACCOUNTING PRONOUNCEMENT

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, which changes the fair value measurement disclosure requirements of FASB Accounting Standards Codification Topic 820, Fair Value Measurement. The update to Topic 820 includes new, eliminated, and modified disclosure requirements. ASU 2018-13 is effective for

fiscal years beginning after December 15, 2019, including interim periods, although early adoption is permitted. Management has evaluated the implications of certain provisions of ASU 2018-13 and has determined to early adopt all aspects related to the removal and modification of certain fair value measurement disclosures under the ASU effective immediately.

# Report of Independent Registered Public Accounting Firm

To the Shareholders of Golub Group Equity Fund and  
Board of Trustees of Valued Advisers Trust

## Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Golub Group Equity Fund (the “Fund”), a series of Valued Advisers Trust, as of January 31, 2019, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, including the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of January 31, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

## Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of January 31, 2019, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2011.

## Summary of Fund Expenses (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction and (2) ongoing costs, including management fees; and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from August 1, 2018 through January 31, 2019.

### Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table below is useful in comparing ongoing costs only and will not help you determine the relative costs of owning different funds. In addition, if transaction costs were included, your costs would have been higher.

	<u>Beginning Account Value August 1, 2018</u>	<u>Ending Account Value January 31, 2019</u>	<u>Expenses Paid During Period<sup>(a)</sup></u>	<u>Annualized Expense Ratio</u>
Actual	\$1,000.00	\$ 950.30	\$6.14	1.25%
Hypothetical <sup>(b)</sup>	\$1,000.00	\$ 1,018.90	\$6.36	1.25%

<sup>(a)</sup> Expenses are equal to the Fund’s annualized expense ratios, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

<sup>(b)</sup> Hypothetical assumes 5% annual return before expenses.

## **Additional Federal Income Tax Information (Unaudited)**

The Form 1099-DIV you received in January 2019 will show the tax status of all distributions paid to your account in calendar year 2018. Shareholders are advised to consult their own tax adviser with respect to the tax consequences of their investment in the Fund. As required by the Internal Revenue Code and/or regulations, shareholders must be notified regarding the status of qualified dividend income for individuals and the dividends received deduction for corporations.

**Qualified Dividend Income.** The Fund designates approximately 0% or up to the maximum amount of such dividends allowable pursuant to the Internal Revenue Code, as qualified dividend income eligible for the reduced tax rate of 15%.

**Dividends Received Deduction.** Corporate shareholders are generally entitled to take the dividends received deduction on the portion of the Fund's dividend distribution that qualifies under tax law. For the Fund's calendar year 2018 ordinary income dividends, 0% qualifies for the corporate dividends received deduction.

For the year ended January 31, 2019, the Fund designated \$4,059,632 as 20% long-term capital gain distributions.

## Investment Advisory Agreement Renewal (Unaudited)

At a meeting held on December 3-4, 2018, the Board of Trustees (the “Board”) considered the renewal of the Investment Advisory Agreement (the “Golub Agreement”) between Valued Advisers Trust (the “Trust”) and Golub Group, LLC (“Golub”) with respect to the Golub Group Equity Fund (the “Golub Fund”). Golub provided written information to the Board to assist the Board in its considerations.

Counsel reminded the Trustees of their fiduciary duties and responsibilities as summarized in a memorandum from his firm, including the factors to be considered, and the application of those factors to Golub and the Golub Agreement. In assessing these factors, the Board took into consideration information furnished by Golub and Trust management for the Board’s review and consideration throughout the year, as well as information specifically prepared or presented in connection with the annual renewal process, including: (i) reports regarding the services and support provided to the Golub Fund and its shareholders by Golub; (ii) quarterly assessments of the investment performance of the Golub Fund by personnel of Golub; (iii) commentary on the reasons for the Golub Fund’s performance; (iv) presentations by Golub addressing Golub’s investment philosophy, investment strategy, personnel, and operations; (v) compliance and audit reports concerning the Golub Fund and Golub; (vi) disclosure information contained in the registration statement for the Golub Fund and the Form ADV of Golub; and (vii) a memorandum from Counsel, that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving the Golub Agreement. The Board also requested and received various informational materials including, without limitation: (a) documents containing information about Golub, including its financial information, a description of personnel and the services it provides to the Golub Fund; information on Golub’s investment advice and performance; summaries of the Golub Fund’s expenses, compliance program, current legal matters, and other general information; (b) comparative expense and performance information for other mutual funds with strategies similar to the Golub Fund; and (c) the benefits to be realized by Golub from its relationship with the Golub Fund. The Board did not identify any particular information that was most relevant to its consideration of the Golub Agreement and each Trustee may have afforded different weight to the various Factors.

1. The nature, extent, and quality of the services to be provided by Golub. In this regard, the Board considered Golub’s responsibilities under the Golub Agreement. The Trustees considered the services being provided by Golub to the Golub Fund. The Trustees discussed, among other things: the quality of Golub’s investment advisory services (including research and recommendations with respect to portfolio securities), its process for formulating investment recommendations and assuring compliance with the Golub Fund’s investment objectives and limitations, its coordination of services for the Golub Fund among the Golub Fund’s service providers, and its efforts to promote the Golub Fund and grow its assets. The Trustees considered Golub’s continuity of, and commitment to retain, qualified personnel and Golub’s commitment to maintain and enhance its resources and systems. The Trustees considered Golub’s personnel, including the education and experience of the personnel. The Trustees noted the addition of personnel to the research team, and the potential benefits to the Golub Fund. They also discussed the termination of Golub’s Chief Investment Officer, including the reasons for the termination and the anticipated effect on the services provided by Golub. After considering the foregoing information and further information in the Meeting materials provided by Golub (including

# Investment Advisory Agreement Renewal (Unaudited) (continued)

Golub's Form ADV), the Board concluded that, in light of all the facts and circumstances, the nature, extent, and quality of the services provided by Golub were satisfactory and adequate for the Golub Fund.

2. Investment Performance of the Golub Fund and Golub. In considering the investment performance of the Golub Fund and Golub, the Trustees compared the performance of the Golub Fund with the performance of funds in the same Morningstar category, as well as with peer group data and the Golub Fund's benchmark. The Trustees noted that the Golub Fund had underperformed compared to its peer group average for the one month and one year periods ended September 30, 2018, but had outperformed for the three month, year-to-date, three year, and five year periods ended on that date. They observed that the Golub Fund performed slightly better than its benchmark for the three month period, but had underperformed for all other periods presented. The Trustees observed that the Golub Fund had outperformed its category average for the one month, three month and year-to-date periods ended September 30, 2018, but had underperformed for the one year, three year, and five year periods. The Trustees also considered the consistency of Golub's management of the Golub Fund with its investment objective, strategies, and limitations. The Trustees considered the Golub Fund's performance relative to the performance of Golub's equity composite and noted that the performance of the composite was higher for 2017. They considered Golub's explanation regarding the reasons for the difference, and determined that the explanation was reasonable. After reviewing and discussing the investment performance of the Golub Fund further, Golub's experience managing the Golub Fund, Golub's historical performance, and other relevant factors, the Board concluded, in light of all the facts and circumstances, that the investment performance of the Golub Fund and Golub was acceptable.
3. The costs of the services to be provided and profits to be realized by Golub from the relationship with the Golub Fund. In considering the costs of services to be provided and the profits to be realized by Golub from the relationship with the Golub Fund, the Trustees considered: (1) Golub's financial condition; (2) the asset level of the Golub Fund; (3) the overall expenses of the Golub Fund; and (4) the nature and frequency of advisory fee payments. The Trustees reviewed information provided by Golub regarding its profits associated with managing the Golub Fund. The Trustees also considered potential benefits for Golub in managing the Golub Fund. The Trustees then compared the fees and expenses of the Golub Fund (including the management fee) to other comparable mutual funds. The Trustees observed that the Golub Fund's advisory fee and net expense ratio were above the average and median of its Morningstar category, but well below the maximum net expense ratio and 50 basis points below the maximum advisory fee. They also noted that the Golub Fund's advisory fee was comparable to the average and median of its custom peer group, and the net expense ratio was below the average and median of its custom peer group. Based on the foregoing, the Board concluded that the fees to be paid to Golub by the Golub Fund and the profits to be realized by Golub, in light of all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Golub.
4. The extent to which economies of scale would be realized as the Golub Fund grows and whether advisory fee levels reflect these economies of scale for the benefit of the Golub Fund's investors. In this regard, the Board considered the Golub Fund's fee arrangements with Golub. The Board considered that while the management fee remained the same at all asset levels, the Golub Fund's

## Investment Advisory Agreement Renewal (Unaudited) (continued)

shareholders had experienced benefits from the Golub Fund's expense limitation arrangement, and that Golub had agreed to extend that arrangement for another year. They also noted that the Golub Fund's shareholders would continue to benefit from the economies of scale under the Trust's agreements with service providers other than Golub. In light of the foregoing, the Board determined that the Golub Fund's fee arrangements, in light of all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Golub.

5. Possible conflicts of interest and benefits to Golub. In considering Golub's practices regarding conflicts of interest, the Trustees evaluated the potential for conflicts of interest and considered such matters as the experience and ability of the advisory personnel assigned to the Golub Fund; the basis of decisions to buy or sell securities for the Golub Fund and/or Golub's other accounts; and the substance and administration of Golub's code of ethics. The Trustees also considered disclosure in the registration statement of the Trust relating to Golub's potential conflicts of interest. The Trustees discussed Golub's practices for seeking best execution for the Golub Fund's portfolio transactions. In terms of other benefits to Golub, the Trustees considered Golub's perspective that the Golub Fund provides an investment option for smaller accounts, and that the public nature of the Golub Fund provides credibility to Golub's operations. Based on the foregoing, the Board determined that Golub's standards and practices relating to the identification and mitigation of potential conflicts of interest were satisfactory.

After additional consideration of the factors delineated in the memorandum provided by counsel and further discussion among the Board members, the Board determined to approve the continuation of the Golub Agreement.
